

SOLVIA FAMILY

THE ECONOMICAL
OFFICE RANGE

LTS

FUNCTIONAL & SUITABLE FOR EVERYDAY USE

EFFICIENT LIGHTING FOR WORKPLACES

Solvia is the straightforward luminaire family designed for modern office applications and every budget. It combines recessed, surface-mounted, pendant and free-standing luminaires in a coherent design concept – with microprismatic optics for standard-compliant, glare-free lighting. The Solvia family meets all technical requirements for computer screen workplaces while remaining aesthetically understated: clean, functional and easy to integrate.

Particularly in projects with fixed budgets, the Solvia family stands out not only for its cost-effectiveness, but also for its reliable lighting quality and ease of planning. The new free-standing luminaire with eco head and integrated sensor technology completes the system perfectly.

PRECISE POSITIONING LIGHT AT THE WORKPLACE

SOLVIA FREE-STANDING LUMINAIRE – DESIGNED FOR PRACTICAL USE

The new Solvia free-standing luminaire enhances the office portfolio with practical functionality. It is equipped with an eco light head specifically developed for project-based use – economical and efficient. The integrated daylight and presence sensor ensures energy-efficient operation and easy commissioning. With three base options – the plate „compact“, U-shaped base or robust table clamp – the luminaire can be flexibly adapted to various workplace configurations. Its glare-free light distribution makes it ideal for screen-based workplaces.

SOLVIA CEILING INSERT LUMINAIRE – FOR MODERN OFFICE CEILINGS

The Solvia ceiling luminaire is designed as a flat inserted version for suspended grid ceilings and is also available as a surface-mounted or pendant variant. Its clean, rectangular shape ensures a calm ceiling appearance and supports consistent lighting design across all office zones. The microprismatic cover meets all requirements for glare-free lighting at computer workspaces in accordance with DIN EN 12464-1. This makes Solvia the ideal solution for economically planned office projects – functional, compliant, and visually restrained.
