

TRI RENOVATION

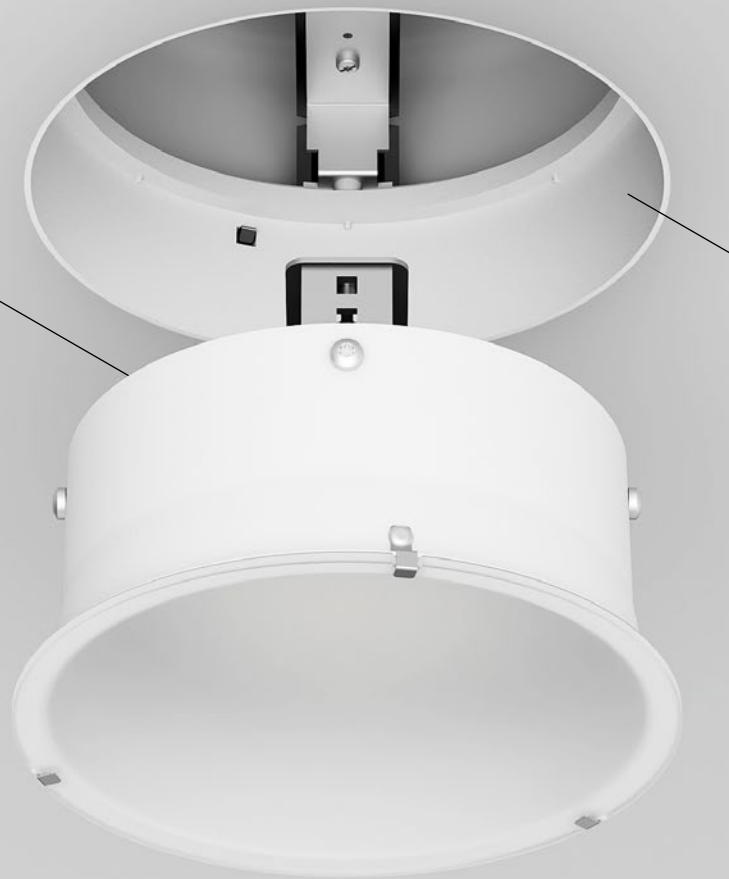

QUICK AND USER-ORIENTED

LTS

2. Insert the new LED light insert into the existing housing using the tool-free magnetic holder.

Automatic fixing and precise centring of the module thanks to the centrally positioned magnetic point.

1. Remove the old luminaire insert from the existing Trimless housing, leaving the plastered installation frame completely intact in the ceiling.

3. Result: High-quality lighting modernisation without interfering with the architecture.

TRI RENOVATION UPGRADE FOR THE FUTURE

TRI RENOVATION KIT – LIGHTING UPGRADE WITHOUT A CONSTRUCTION SITE

The trimless TRI luminaire family from LTS, whether round or square, is now brought up to date with the latest LED technology thanks to the new renovation kit. The trimless design remains fully intact; only the luminaire insert is replaced. This new solution is ideal for renovation during ongoing operations: clean, CE-compliant and without any ceiling intervention. The existing architecture is preserved – the lighting is future-ready. Although TRI is no longer part of the current LTS portfolio, we continue to support our long-standing customers with a dedicated refurbishment solution that ensures their lighting installations remain efficient and future-ready.

GOOD TO KNOW

- Renovation kits for round TRI versions are available immediately.
- Square TRI versions are available on request for specific projects.
- CE-compliant, standardised solution with modern LED technology.
- 5-year manufacturer's warranty according to LTS warranty conditions.
- Personal consultation and project support via the 360° LTS Lighting Service.
