Lichtkanal IP54

LKIP 001 / 002 / 005.1 / 005.2

IP54

D

- ⚠ **Montage nur unter überdachten Flächen.**
- Hinweisblatt 970486 und 970337 für Bestückung mit Lichteinsätzen T16/G5 beachten.

GB

⚠ ***Mounting only on surfaces under roofs.***

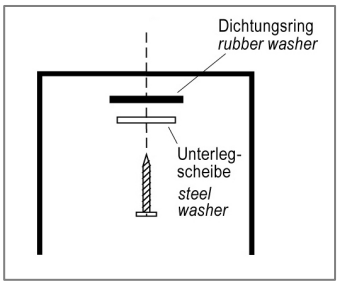
Consider the notes 970486 and 970337 for fitting with light-inserts T16/G5.

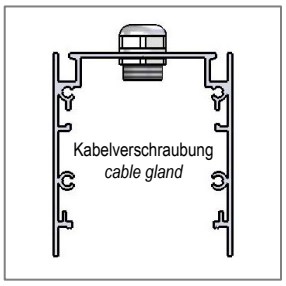
Anbaumontage LKIP 001...

Leuchte gemäß Explosionszeichnung auseinanderbauen. Beigelegten Dichtungssatz verwenden. Wahlweise Membrandichtung oder Kabelverschraubung verwenden. Membrandichtung von innen mit Silikon abdichten.

Surface-mounting LKIP 001...

Disassemble the luminaire according to the exploded view. Use enclosed seal kit. Optional use of diaphragam seal or cable gland. Sealing of the diaphragam seal with silicone from the inside.



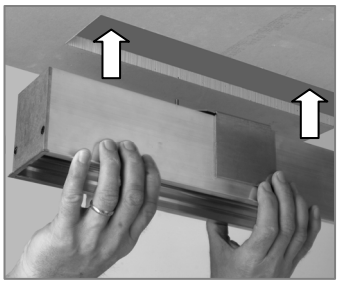


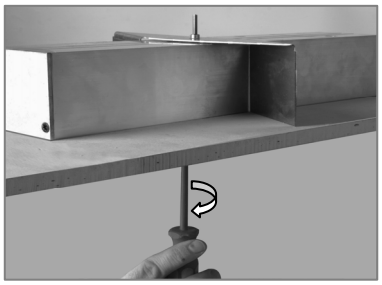
Einbau Gipskarton LKIP 002…

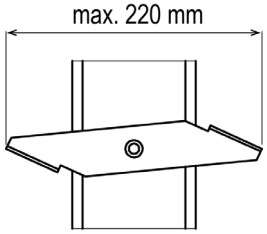
Leuchte gemäß Explosionszeichnung auseinanderbauen. Beim Einbau maximale Spannbügelweite beachten.

Installation in Plasterboard LKIP 002…

Disassemble the luminaire according to the exploded view. When mounting pay attention to the maximum width of the clamps.







Spannbügel/*clamp*

Einbau Beton LKIP 005.1... / 005.2…

Installation in Concrete LKIP 005.1… / 005.2…

Montageanleitung

❶ Abschrauben der Enddeckelabdeckungen (siehe Detail).

❷ Acrylglasdiffusor herausnehmen (siehe Detail). Beim Zusammenbau auf korrekten Sitz des Dichtgummis achten.

❸ Gegebenenfalls Verdrahtung lösen. Nur bei netzseitig abgeschalteter Leuchte durchführen.

❹ Montage der T16- und LED-Lichteinsätze mit Drehriegel (siehe Detail). Achten Sie auf richtigen und festen Sitz der Lichteinsätze.

Installation Instruction

❶ *Screw off the plates from end covers (see detail).*

❷ *Remove acrylic glass diffuser (see detail). When assembling, pay attention to correct placement of the rubber sealing.*

❸ *If necessary remove the wiring. The luminaire must be switched off mains-sided.*

❹ *Installation of the T16 and LED light-inserts with turning bolts (see detail). Pay attention to correct and firm seating of the inserts.*
